Dear Friend,

No one enjoys seeing a frightened cat or dog who is homeless trying to survive extreme heat or frigid weather while searching for food. Our goal is to assure that these animals live in a comfortable, safe environment. Our current shelter is over 50 years old and is beyond repair. It was not built to house animals for more than a few days. While everything is being done by the staff and volunteers to provide for these abandoned and sometimes abused animals, there is a need for a new shelter.

Although the construction of the new shelter has been delayed longer than we anticipated, we hope to see movement by the beginning of the fall. The architects, designers and engineers have been working diligently together to make some revisions and bring it into budget. We can assure you that every effort is being made to make the new shelter a reality in the near future.

In the meantime we, the Building Hope Committee, are continuing our fundraising activities. We are planning and designing new and exciting programs which will enhance the lives of the animals who look forward to adoption in a "forever home."

Our dream and yours will be a reality as we look forward to a new Yonkers Animal Shelter in the near future.

We thank you for your continued interest and support.

Sincerely,

*Kathleen Pistone Carucci*

Dr. Kay Pistone Carucci  
President
